

Carbon Reduction Plan

Date Published: June 2026

Next Review: June 2027

Website: <https://staywellcare.co.uk/>

1. Commitment to Achieving Net Zero

Staywell Care Services Ltd is committed to achieving Net Zero greenhouse gas emissions by 2050, in line with UK Government requirements and Procurement Policy Note (PPN) 006.

We will reduce emissions across our operations, supply chain, and service delivery through continuous improvement, investment in low-carbon solutions, and transparent annual reporting.

2. Organisation Overview

Organisation name: Staywell Care Services Ltd

Registered address: 1 Adam Brown Avenue, Blackwater, Camberley, England, GU17 0SE

Sector: Health & Social Care

Services: Homecare

Employees: 7

Reporting period: Baseline year established; emissions calculation underway

3. Baseline Emissions Footprint

Staywell Care Services Ltd has established its baseline year in accordance with PPN 006.

Full emissions calculations for Scopes 1, 2 and 3 are currently underway and will be published in our next annual Carbon Reduction Plan update.

Scope Definitions

Scope 1: Direct emissions from company vehicles, gas heating, and on-site fuel use

Scope 2: Indirect emissions from purchased electricity

Scope 3: Value-chain emissions including business travel, employee commuting, waste, water, purchased goods and services, and upstream transportation and distribution (mandatory category)

4. Current Emissions Reporting

As this is our first Carbon Reduction Plan, emissions data is pending.

The table below reflects our current reporting status.

Emissions Source	Baseline Year (tCO ₂ e)	Most Recent Year (tCO ₂ e)
Scope 1	Data pending	Data pending
Scope 2	Data pending	Data pending
Scope 3	Data pending	Data pending
Total	Data pending	Data pending

Full emissions reporting will be published in our next annual update.

5. Emissions Reduction Targets

Staywell Care Services Ltd commits to:

Publishing full emissions data in our next annual Carbon Reduction Plan

Implementing reduction measures across energy, transport, waste, and procurement

Achieving Net Zero by 2050

Progress will be reported annually on our website.

6. Carbon Reduction Measures Already Implemented

Energy & Buildings

LED lighting in the office

Smart meters and energy-use monitoring

Reduced reliance on gas heating

Digital care systems reducing paper consumption

Transport

Route optimisation for community visits

Encouraging car-sharing and low-carbon commuting

Waste & Resources

Improved recycling and waste segregation

Reduced paper use through digital workflows

Sustainable procurement principles introduced

Digital & Systems

Cloud-based care records reducing physical storage

Supplier checks for environmental compliance

7. Planned Future Measures

Short-Term (1–3 years)

Full transition to renewable electricity

Energy-efficiency upgrades in office

Medium-Term (3–7 years)

Phasing out gas heating

Mandatory carbon-reporting requirements for suppliers

Long-Term (7+ years)

Zero-emission fleet

Net Zero supply chain

Carbon-neutral buildings

8. Governance & Approval

This Carbon Reduction Plan has been:

Completed in accordance with PPN 006 and the Technical Standard for Carbon Reduction Plans

Reviewed and approved by the Board of Directors of Staywell Care Services Ltd
